Re: Application for a Certificate of Public Convenience and Necessity of Onion River Solar, LLC to Construct a Solar Electric Generation Facility in the Town of Holland, Sheboygan County, Wisconsin 9805-CE-100

To the Person Addressed:

Enclosed is an optical disk copy of an initial application filed with the Public Service Commission of Wisconsin (Commission) by Onion River Solar, LLC (Onion River). The application seeks authority to construct and place into operation a new solar electric generating facility. The proposed project would be located in the town of Holland, Sheboygan County, Wisconsin. Pursuant to Wis. Stat. § 196.491(3)(a) and Wis. Admin. Code § PSC 111.51(4), the Commission has directed Onion River to send an electronic copy of the application to the clerk of each municipality, town, and county in which the proposed facilities will be located and to the main public library and local libraries in the proposed project area. Please place this disk, along with a copy of this letter, in an area where it will be available for public review until July 5, 2021.

When the application is found by the Commission to be complete, a printed copy will be mailed to you. Additional correspondence will also be mailed to you, other interested parties, and all landowners potentially affected by the proposed project. These mailings will list your office as a location where the public may review the project application.

All documents relating to the project may be viewed through the Electronic Records Filing system at the Commission's website, <http://psc.wi.gov>. The docket number 9805-CE-100 listed above is required to access the documents.

If you have questions regarding this letter, please contact me at (608) 266-9658.

Sincerely,

Jeffery Kitsembel, P.E.
Nuclear Engineer
Division of Energy Regulation and Analysis
