7. RECORD RETENTION CERTIFICATION:
Clerk-Treasurer Janelle Kaiser certified that everything is up to date.
8. PUBLIC INPUT:
 - a. Property owner Glenn Lemmenes of N1399 Cottage Drive was present to discuss drainage problems on Lower Smies Road. Glenn reported that large rainstorm events in recent years, including one particularly damaging storm on August 9th, 2020, have contributed to water and other debris washing over Lower Smies Road due to a culvert on that road running at full capacity. Glenn discussed property damage that occurred as result of the August 9th storm and also mentioned that runoff from the bluff and a nearby field likely contributed to the property damage. Glenn reported that Lower Smies Road is wet even when it has not rained and requested that the project to manage these drainage problems be moved up on the Town's schedule.
 - b. Steve Meyers of N1437 Cottage Drive seconded Glenn Lemmenes' comments and inquired about whether the Township has adopted a stormwater management plan. The Town Board

- informed him that the Sheboygan County Planning and Conservation Department governs the Shoreland Zoning Ordinance, which includes stormwater management plans that apply to Sheboygan County municipalities.
- c. Jane Hamilton of N1483 Apple Tree Lane stated that the aforementioned drainage issues on Lower Smies Road have been present for the past 3 years and requested that the Town Board act on the matter. She requested that some funds be planned in the 2021 budget to address the issue and stated that she would like to see someone get hired to complete the work required to correct it. Jane expressed dissatisfaction and feels that a lack of action has taken place, stating that there shouldn't be any water flowing down to the properties on Cottage Drive because the water should drain to the south as it had in the past. Jane inquired about the next budget planning meeting; Chair Becker provided Jane with information about the September budget planning meeting and explained that a notice would be available on the Town's website and posting places.
 - d. Chrissy Meyers of N1437 Cottage Drive spoke to say that the August 9th rainstorm was not the only unique weather event that has affected property owners. She stated that Sheboygan County has had three 100-year flood events in 2020 that caused extensive bluff damage.
 - e. Supervisor Steve Jones of N1837 Tree Haven stated that he experienced unprecedented damage to his property due to the August 9th, 2020 rainstorm. He reported that he has not seen that type of damage to his property from any other weather events in the past, and that the water simply had nowhere to go due to the water levels on Lake Michigan.
 - f. Glenn Lemmenes commented that the aforementioned bluff is 15 feet or greater in height, and that the water causing drainage issues is a result of the bluff runoff as opposed to the groundwater runoff due to lake levels. He stated that the water should be flowing down properly to the culvert on Lower Smies Road as opposed to flooding other properties.
 - g. Jane Hamilton requested that the Town Board determine who the property owner of the property on the aforementioned bluff is in order to gain approval to perform the necessary work to correct the drainage issues, or at least to investigate the source of the issue. Supervisor Lammers stated that the efforts to contact the property owner have already begun. Supervisor Lammers stated that he would be in contact with Jane Hamilton in regard to any response received from the property owner.

15. SECOND RESIDENCE ON A PARCEL AS DEFINED BY THE HOLLAND TOWN CODE:

The Holland Town Board discussed three properties that may have constructed a second dwelling unit as defined by the Holland Town Code on one parcel, which violates the Town of Holland's zoning ordinances unless construction occurred prior to the zoning ordinance update. The board determined that a special meeting to discuss these properties should be held on September 21st, 2020, immediately following the budget planning meeting of the Holland Board Administrative Committee. Chair Becker will contact Town Attorney Gerry Antoine to ask that he join the call to provide his counsel. Clerk-Treasurer Janelle Kaiser will contact assessor Luke Mack to obtain property records for the three properties in question; these records and any other pertinent information will be provided to Gerry prior to Monday's meeting.

Clerk-Treasurer Janelle Kaiser mentioned that some areas of the contract, such as a 24/7 hotline as well as the application portal, may be able to be eliminated from Granicus' current offering based on the needs of the Town of Holland. She also noted that if Granicus could not meet the needs of the Town, the Town may consider selecting a new vendor to provide address identification and lodging marketplace monitoring software.

17. SHORT-TERM RENTAL ORDINANCE ENFORCEMENT:

Clerk-Treasurer Janelle Kaiser has made numerous contact attempts to reach the property owner at N2211 N Pine Beach Road in regard to short-term rental activity practiced on the property without proper licensure. The Holland Town Board determined that enforcement action as it relates to the property owner's compliance with the Town's short-term rental ordinance should be discussed during the aforementioned special meeting of the Town Board on September 21st, 2020, so that Gerry Antoine's legal counsel can be provided as it pertains to the course of enforcement action.

b. PARKS AND PROPERTY:

Supervisor Hamilton reported he submitted two grant requests to Charter Communications (Spectrum) for broadband enhancement projects on Idlewood Court and County Road G (Town Hall), respectively. The applications received were combined by Charter and will

be reviewed as one project; Charter will analyze cost and other factors to determine priority of the projects. If deemed viable by Charter, the prioritized projects will be submitted to the Public Service Commission of Wisconsin to be evaluated and from there the state will award grants. Supervisor Hamilton stated that the Town of Holland could gather information about how many property owners would take advantage of the service on Idlewood Court; it is still being determined how the cost would be distributed amongst the Town of Holland and/or the property owners receiving the service installation. A special assessment for the properties affected is another option of funding the Town's portion of the project on Idlewood Court.

c. ROADS:

Supervisor Lammers stated that the monthly report provided by Director of Public Works and Property Nate Voskuil was an adequate update regarding current road project progress. The report was included in the September board meeting packet. Supervisor Huenink reported that the Cedar Grove Fire House is up for re-appraisal, which is done every 10 years; the Holland Town Board authorized Supervisor Huenink to recommend to the Village of Cedar Grove Board that Ted Scharl perform the appraisal services for the fire house.

In light of the recent decisions made by the Holland Town Board and the Village of Cedar Grove regarding billing for incidents on I-43 which involve Township or Village residents, Chair Becker recommended that an addendum to the intergovernmental agreement be drafted memorializing the process to be followed for residents of the village or township involved in motor vehicle incidents and signed by each party.
