8. PUBLIC INPUT:
  - a. Bob Neeb presented the Town Board with 12 questions relating to the Joint Development Agreement (JDA) between the Town of Holland, Sheboygan County, and Alliant Energy for the Onion River Solar Project. Bob requested a response to those questions in writing prior to the next board meeting, adding that he does not place the same level of scrutiny on newer board members who were not present during the development of the JDA. Bob inquired about any specific commitments

made by Onion River to the Town Board and Town residents. He commented that other groups are allowed to present topics at board meetings such as invasive species, waste and recycling, noxious weeds, etc. but the same courtesy is not extended to residents.

- b. Michael Czysh commented that no one provided notice to him about the Onion River Solar Project. He questioned why the Township couldn't do something about planting trees between his house and the solar panels. He doesn't want to see the solar panels and would like trees to block the view; he has seen pictures of other solar farms where trees were planted as a buffer. He suggested that his neighbor could plant the trees.
- c. Stan Lammers stated that he is a lifelong resident of the Town and that there have been 27 new homes built during his lifetime in the area surrounding the solar farm. He provided that what may be a nuisance to some may not be a nuisance to others and that observation of what takes place on one's property ends at one's respective property line.
- d. Brody Stapel and Kelly Caswell commented about a property owner's right to do with their land what they please as long as laws are followed; in summary, a brief conversation was had about recognizing that one property owner can't tell another property owner what to do with their land.
- e. Dennis Kappers stated that he is not for the solar panels and that there are repercussions to other people as a result. He commented that people move here because it's a great area and that one shouldn't be able to ruin someone else's property and life just because one owns the land around it. He also briefly commented on the minimum acres and other rules related to building a house in the Town.

12. INFORMATION EXCHANGE WITH THE SHEBOYGAN COUNTY SHERIFF'S DEPARTMENT:

Sergeant Erik Linton of the Sheboygan County Sheriff's Department was present to introduce himself and exchange information with the Holland Town Board. He reported that some equipment, including a trailer, has been stolen from the solar farm and that some truckers for the project have gotten lost, but that there was nothing out of the ordinary nor any major influxes in incidents to report. He stated that the Town of Holland is a frequently patrolled area. Speeding enforcement on County Road D was discussed briefly.

Sargeant Linton provided that the speed detection/display trailer will be available for the Town to request usage of this summer if needed.

13. ONION RIVER ELECTRICAL UTILITY UPDATE:

Chair Huenink addressed 2 items that were discussed on the monthly status call he participates in with the Onion River Solar project team. The first is about a request from the Town assessor for a map of the parcel boundaries and usage of those parcels for the solar farm; Jared Stensby has sent that request on to the appropriate individuals. The second item is that Alliant Energy may encourage farmers to farm outside the fence surrounding the solar farm if they would like to. This may allow for less mowing or pollinator area to maintain and provide an opportunity for additional income to farmers.

Jared Stensby of Alliant Energy was present to provide a progress update about the Onion River Solar Project. He provided information about current, upcoming, and completed work on the project, including a plan for reseeding certain land areas with pollinator plants. All deliveries for project construction have been made and project completion is currently anticipated in October.

19. DISCUSS INTERPRETATION OF CONDITIONAL USES IN THE A-1 ZONING DISTRICT TO INCLUDE SECTION 330-22B.(2)(d):  
The Town Board discussed their interpretation of conditional uses in the A-1 zoning district to include the above code section. The A-1 zoning district provides that a conditional use permit is required for certain agriculturally related activities. The Town Board concurred that a use can be considered incidental to agriculture (incidental uses are permitted, not conditional) when the use includes, for example, a farm processing or storing an agricultural product being produced by said farm, as opposed to a business whose main purpose is to process or store agricultural products from other farms. For example, a grain elevator that stores products from other farms as opposed to a farm that has their own grain elevator for their product. Another example could be a farm that processes their own milk as opposed to a facility that only processes milk from other farms. The Town Board concurred that it should be specified in ordinance or otherwise documented to clarify when a conditional use permit is required for agriculturally related activities.
